WHY PARKER'S COMPUTER DIAGNOSTIC SONOGRAPHY PROGRAM?

Parker's Associate of Applied Science with a Major in Diagnostic Sonography program is geared toward building an understanding of the methods, ethics, and tools crucial to advance in today's health care landscape. Course content includes anatomy and physiology, patient care, and sonographic principles that explore the broad range of responsibilities that face today's leading diagnostic sonographers.

GRADUATES WILL BE PREPARED TO:

- Obtain, review, and record an accurate patient history with supporting clinical data
- Perform diagnostic procedures and provide summary of findings for physicians
- Analyze and inspect images for quality and adequate coverage of areas needed for diagnoses
- Recognize differences between normal and abnormal images
