Why Parker University's Functional Nutrition Program?

The Master of Science in Functional Nutrition program is an excellent interprofessional graduate degree for those seeking to enhance their skills and promote nutrition education in a variety of settings at the mastery level.

The Commission on Dietetic Registration will require a graduate degree for eligibility to take the Registered Dietitian/Nutrition (RDN) credential examination beginning January 1, 2024. Therefore this new program will provide students with the education necessary to meet these new requirements and remain competitive in the health care industry and to obtain the necessary skills and advanced competencies in the health care and wellness industry.

Parker's Master of Science in Functional Nutrition will:

- Provide graduates with the ability to communicate the link between functional nutrition, health promotion, and disease prevention
- Prepare graduates to apply research findings to the issues they face as clinicians, educators, and researchers in the field of functional nutrition
- Offer an opportunity for graduates to apply for the following certifications: Diplomate for the Chiropractic Board of Clinical Nutrition, Diplomate for the American Clinical Board of Nutrition, Certified Nutrition Specialist, or Certified Clinical Nutritionist

Accreditation

Parker University is accredited by the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC) to award certificates, associate, baccalaureate, masters and doctorate degrees. Questions about the accreditation of Parker University may be directed in writing to the Southern Association of Colleges and Schools Commission on Colleges at 1866 Southern Lane, Decatur, GA 30033-4097, by calling (404) 679-4500, or by using information available on SACSCOC's website (www.sacscoc.org).
