## POSITION

TO CHANGE MORE LIVES  
THAN JUST MY OWN.

### Health Information Management Bachelor of Science

Parker University's Health Information Management degree prepares students to manage healthcare data, resources, and professionals within a healthcare organization, including the adoption of electronic health records and other forward-thinking initiatives. Health Information Managers make it possible for doctors and others to navigate through databases, registries, and other patient resources.

Igniting Passion. Transforming Lives.

HIM

At Parker, we are constantly evolving and refining, just like the healthcare industry. The latest innovations and research inform our curriculum so that our students have access to real-time trends on top of a solid academic foundation. Our fully online degree in Health Information Management teaches students the nature, structure, and translation of data into usable forms of information so that they may advance healthcare services and systems. Upon graduation, our students go on to elevate the entire healthcare field.
