CLINICAL RESEARCH

MASTER OF SCIENCE  FULLY ONLINE

The Master in Clinical Research is an extensive program of study and research experience designed for health professionals that plan to participate in clinical trials as investigators, study coordinators, and site managers. The curriculum provides students with a comprehensive understanding of clinical research methodology, biostatistics, research ethics, and regulatory principles. The degree program will provide graduates with the necessary skills to conduct clinical research and prepare graduates for enrollment in a doctoral program.

PARKER UNIVERSITY'S MASTER OF SCIENCE IN CLINICAL RESEARCH

The MS in Clinical Research program at Parker University is dedicated to the innovation, development, and application of knowledge related to all aspects of clinical research. The mission of the program is to prepare health professionals to apply the knowledge and analytical skills to engage in clinical research, epidemiology, ethical and regulatory principles, and evidence-based healthcare.

WHY PARKER'S CLINICAL RESEARCH PROGRAM?

- Enrollment is limited to a small number of high-caliber students to ensure personalized attention.
- Experienced Dean and faculty members with extensive experience in clinical and translational research.
- Industry-experienced instructors with subject matter expertise who facilitate the development of career-related competencies.
- Post grad resources and support upon graduating.
- Opportunity to be included on international, inter-disciplinary, patient-centered clinical research.
