PARKER UNIVERSITY'S DEGREE IN NUTRITION SCIENCE

As obesity is on the rise, the importance of treating and preventing dietary related diseases will become more important. Dietitians and nutritionists will be at the forefront of preventing such issues such as diabetes and heart diseases. Today, career opportunities for nutritionists are higher than ever, as they are necessary in hospitals, government, and other health related institutions.

WHY PARKER'S NUTRITION SCIENCE PROGRAM?

The Bachelor of Science degree in Nutrition Science applies scientific knowledge and clinical application to improve human health and well-being and to prepare students to pursue graduate studies, pre-health professional degrees, and careers in public health and nutrition policy. The Nutrition Science degree is online.

Parker's Bachelor of Science in Nutrition Science will:

- Apply nutritional science to improve health and wellness at the individual and community levels.
- Analyze, synthesize, and evaluate scientific literature to make ethical, evidence-based decisions about nutrition.
- Integrate justice, equity, diversity, and inclusion principles into nutritional science and food systems decisions.
- Demonstrate skills and abilities as nutritional science and health researchers for post-graduate opportunities and/or entering the workforce.
