HEALTH INFORMATION MANAGEMENT BACHELOR OF SCIENCE

Parker University's Health Information Management degree prepares students to manage healthcare data, resources, and professionals within a healthcare organization, including the adoption of electronic health records and other forward-thinking initiatives. Health Information Managers make it possible for doctors and others to navigate through databases, registries, and other patient resources.

LEARN IT. LIVE IT.

PARKER UNIVERSITY'S HEALTH INFORMATION MANAGEMENT DEGREE

At Parker, we are constantly evolving and refining, just like the healthcare industry. The latest innovations and research inform our curriculum so that our students have access to real-time trends on top of a solid academic foundation. Our fully online degree in Health Information Management teaches students the nature, structure, and translation of data into usable forms of information so that they may advance healthcare services and systems. Upon graduation, our students go on to elevate the entire healthcare field.

WHY PARKER'S HEALTH INFORMATION MANAGEMENT PROGRAM?

- Curriculum allows students to master one course each month
- Preparation for relevant certification and licensure examinations
- Financial aid available
- Tutoring and learning resources available

Parker's Health Information Management program has been thoughtfully designed to meet the needs of today's growing healthcare industry. Students learn to collect, integrate, and analyze primary and secondary healthcare data, disseminate information, and manage information resources. With courses in areas such as health data management, health statistics, information technology, and systems, organization management, privacy, security, and confidentiality, students are prepared to advance their career upon graduation.

Accreditation

Parker University is accredited by the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC) to award associate, baccalaureate, masters, and doctorate degrees. Parker University also may offer credentials such as certificates and diplomas at approved degree levels. Questions about the accreditation of Parker University may be directed in writing to the Southern Association of Colleges and Schools Commission on Colleges at 1866 Southern Lane, Decatur, GA 30033-4097, by calling (404) 679-4500, or by using information available on SACSCOC's website (www.sacscoc.org).

The Health Information Management accreditor of Parker University is the Commission on Accreditation for Health Informatics and Information Management Education (CAHIIM). The College's accreditation for the Bachelor of Science degree in Health Information Management has been reaffirmed through 2027-2028. All inquiries about the program's accreditation status should be directed by mail to CAHIIM, 200 East Randolph Street, Suite 5100, Chicago, IL, 60601; by phone at (312) 235-3255; or by email at info@cahiim.org. CAHIIM serves the public interest by establishing quality standards for the educational preparation of future health information management (HIM) professionals. When a program is accredited by CAHIIM it means that it has voluntarily undergone a rigorous review process and has been determined to meet or exceed the accreditation standards.

As a HIMSS Approved Education Partner, Parker University's Health Information Management (HIM) program has met HIMSS' rigorous standards for delivering world-class, effective healthcare and health information and technology education. Parker University is a member of an exclusive group of others that are authorized to offer HIMSS-approved education programs that prepare candidates for advanced knowledge in health information and technology or healthcare, as well as preparing candidates to sit for the CAHIMS or CPHIMS exam.
