LEARN IT. LIVE IT.

PARKER UNIVERSITY'S MASTER OF SCIENCE IN CLINICAL NEUROSCIENCE DEGREE

Parker University's Neuroscience program provides professional online and clinical education targeting advanced topics, including traumatic brain and spinal cord injuries, paraplegia, and the sequelae of limb amputations. Additional areas of study include balance disorders, fall risk assessment, and post-stroke rehabilitation. It is through the management of more complex patient presentations that graduates of this program assume expert roles as clinicians, researchers, or educators.

WHY PARKER'S CLINICAL NEUROSCIENCE PROGRAM?

It consists of an education that includes a clinic-based lab that continues to build skills beyond the online degree. It prepares graduates for currently available professions in neuroscience as well as new, emerging fields of study in healthcare and chiropractic. The curriculum provides practicing clinicians the opportunity to develop new skills and expertise in managing neurological dysfunction in their patients. Additionally, graduates are well suited for vital roles in education and research.
