PARKER UNIVERSITY'S DEGREE IN HEALTH SCIENCES

Parker University's fully online Associate of Science in Health Sciences is your gateway into one of the fastest-growing industries in the U.S. Designed to fit your life—whether you're launching your education or coming back to finish what you started—this flexible program builds a solid foundation in health sciences, public health, and healthcare systems. You'll explore career options, gain real-world insight, and prepare to move into a specialized program or bachelor's degree. It's a smart first step toward a future in healthcare.

WHY PARKER'S HEALTH SCIENCES PROGRAM?

- Prepares you for advanced degrees in healthcare—the Health Sciences general education courses meet the degree requirements to apply for Parker's AAS degrees in Diagnostic Sonography, Diagnostic Cardiovascular Sonography, or Radiologic Technology; all courses in the Health Sciences degree are transferable to any of Parker's Bachelor of Science degree programs
- Study from anywhere with convenient 4-week (4 Phase) courses; take one or two at a time to fit your lifestyle
- Schedules designed to fit busy students balancing school, working, and family—so you don't have to choose between them
- Understand the healthcare system by building real-world knowledge of how healthcare operates so you can enter the field with confidence
- One-on-one career and faculty advising from experience instructors to help you find how you want to fit into the healthcare industry
- Access strong student support for online students, including tutoring, mental health support, and career services
- Financial aid and scholarship assistance available for qualified students

**Financial aid programs are subject to change without prior notice due to updates in federal, state, or institutional policies. This may include changes to the types of available aid, award amounts, eligibility criteria, and application procedures.*
